

Trauma Grand Rounds

“Ocular Trauma: When to Worry”

Jessica Nichole Thayer, MD

Registration Information

To receive CME credit, participants need to:

- Register
- View presentation
- Take quiz and obtain 80% (4 out of 5) to pass
- Complete evaluation
- Print certificate

Participants should take 1 hour to complete the activity.
Participants may work at their own pace.

Teaching Methods

This online enduring material uses the following teaching methods and media:

- 1) Lecture (audio/videotaped)
- 2) PowerPoint Presentation

Acknowledgements of Commercial Support

There is no commercial/financial support for this activity.

CME Enduring Material Description, Target Audience and Needs Statement

This online educational enduring material is designed for physicians and clinical staff. Its purpose is to bridge the gap between the medical knowledge and current practice with evidence based practice guidelines to achieve optimal patient outcomes through discussions and examinations of interesting, real world cases seen in the pediatrician's office.

Objectives

At the end of this online enduring material, participants should be able to:

- Accurately identify critical exam findings
- Determine when to consult ophthalmology urgently
- Determine when it's okay to call ophthalmology after the patient is more stabilized
- Critically interpret orbital imaging
