

Andrew's Institute Sports Medicine Lecture Series
“Considerations and Implications of low Back Pain and Program Design ”
Jacob Rivera

Registration Information

To receive CME credit, participants need to:

- Register
- View presentation
- Take quiz and obtain 80% (4 out of 5) to pass
- Complete evaluation
- Print certificate

Participants should take 45 minutes to complete the activity.

Participants may work at their own pace.

Teaching Methods

This online enduring material uses the following teaching methods and media:

- Lecture (audio/videotaped)
- PowerPoint Presentation

Acknowledgements of Commercial Support

There is no commercial/financial support for this activity.

CME Enduring Material Description, Target Audience and Needs Statement

Sports medicine is an evolving discipline in which experience of a multigenerational factor can shed new information and knowledge on how to properly identify, manage and prevent common injury types seen in sports medicine today. This online educational enduring material is designed for physicians and clinical staff. Its purpose is to bridge the gap between the medical knowledge and current practice with evidence-based practice guidelines to achieve optimal patient outcomes through discussions and examinations of interesting, real-world cases.

Objectives

At the end of this online enduring material, participants should be able to:

- Review what to consider when back pain is present during training.
- Discuss how to intervene when back pain is present and what to hold athletes accountable to during continued training.
