### CME Enduring Material Description, Target Audience and Needs Statement

Sports medicine is an evolving discipline in which experience of a multigenerational factor can shed new information and knowledge on how to properly identify, manage and prevent common injury types seen in sports medicine today. This online educational enduring material is designed for physicians and clinical staff. Its purpose is to bridge the gap between the medical knowledge and current practice with evidence-based practice guidelines to achieve optimal patient outcomes through discussions and examinations of interesting, real world cases.

### Objectives

At the end of this online enduring material, participants should be able to:

- Discuss how to meet other professionals within the sports medicine community.
- Discuss how to create relationships that aid in growing the practice overall and share the culture within the communities we serve.
