

What is eeds?

eeds™ is a cloud-based software for comprehensive CE administration. eeds™ has evolved as the premier system to efficiently document quality of CE and to measure the direct impact of specific educational interventions on patient outcomes.

eeds™ enhances the learning experience by leveraging cutting edge technology with features such as an Activity Chat Forum, Audience Response System, and Course Material Archives that are easily accessed through any smart device. Automated Outcome Studies reinforce course content and measure effect on practice. These surveys are individually customized according to the original answers given by each participant at the event.

We provide a customizable co-branded portal for our CE partners to post their calendars, enduring materials, and options to register and receive payment for upcoming CE events. We participate in conferences for CME/ CNE/CPE Providers to keep up to date with educational needs and modify our system to accommodate the changing requirements.

Unique Pricing Structure

BASIC ADMINISTRATION FEE

\$5000 (Billed Annually)

OPTIONAL SERVICES

**SMS Sign-in
COC Cancer Reports
Residency Program Reports
Participant Subscriptions**

More Features for Less Money

eeds™ determines pricing proposals based on the number of hospital campuses served and specific needs of an organization. All features and components of the system are included in one annual price. We pride ourselves on uncomplicated, upfront pricing.

Newest Innovative Features

ACCREDITATION ADVISOR

Behind the scenes “coach” to help you meet & document the necessary criteria for accreditation with commendation while you are developing and conducting educational activities.

AUTOMATED OUTCOME STUDY

Reinforces your course content and measures actual impact on practice. This intuitive survey automatically deploys at a future date that you choose. This tool uses “smart technology” to ask individualized outcome questions based on the learners' previous responses at the time of the activity.

6-CLICK PARS REPORTING

Simplify your process and save time by using our ACCME PARS feature to generate a report with 6 clicks of your mouse.

WORKFLOW

STEP 1

Enter Event Information

Prior to the event the coordinator enters information about the event (title, speaker, objectives, etc.).

STEP 2

Distribute Activity Code

Then, at the event, share the 6-digit secret code with attendees to use as they sign-in.

STEP 3

Attendees Sign-in

Next, the attendee will use one of the available options including the eeds iOS App, Android app, text messaging, or mobile website to receive attendance.

STEP 4

Online Evaluation and More

Once attendees sign-in they're taken to an “Activity Overview” page where they can complete an evaluation, download course materials, generate certificates, participate in audience response surveys, and more.

STEP 5

Outcome Study

After the event, eeds can automatically follow-up with your attendees with an outcome study to determine the event's impact on practice.

STEP 6

Turnkey Reports

Whenever needed, a wide array of online reports are available. Get data or aggregate data for the whole year. Included in these reports is our 6-click PARS report.
