

eeds™ is economical

Just like everything else, eeds pricing is simple. There are no extra "modules", "publishers", or "hosting" to purchase. There are no per-user license fees to worry about. Below are the fees you'll be responsible for:

1. ADMINISTRATIVE FEE

\$3000 (billed annually).

2. RSS ATTENDEE SUBSCRIPTIONS

\$15 per attendee that requires transcripts (billed annually).

The pricing above gives you access to all of benefits eeds as seen on the grid on the next page. With regards to the attendee subscriptions, you can pay for as many or as few people as you want. Organizations with very large RSS attendance may qualify for a capped fee. The attendee subscription grants access to transcripts and unlimited attendance certificates per day. Those without a subscription will not have access to transcripts and will be limited to one single-activity certificate per day.

Many organizations choose to purchase subscriptions for their physician attendees, however, it is not a requirement. RSS attendees who do not have a subscription will be asked to purchase one (priced \$20-\$40) when they attempt to print an attendance transcript.

Go Paperless

with **eeds**™

eeds, is an internet-based service that automatically tracks and organizes your CME activity data. Attendees "sign-in" using their mobile devices and are given instant access to all important event information and features including evaluation, course materials, certificates, and more. The steps below show how most customers use *eeds*.

1

ENTER EVENT INFO

Prior to the event, the coordinator enters information about the event (title, speaker, objectives). Here you can choose if you want to utilize an online evaluation.

2

DISTRIBUTE CODE

Before the event, share with attendees the 6-digit secret code they'll need to sign-in.

4

ONLINE EVALUATION AND MORE

Once attendees sign-in they're taken to an "Activity Overview" page where they can complete an eval, download course materials and more!

5

OUTCOME STUDY

After the event, *eeds* can automatically follow-up with your attendees with a customized outcome study to determine the event's impact on practice. This automated feature is light-years ahead of paper-based forms and generic "monkey" surveys.

3

ATTENDEES SIGN-IN

Available options include the *eeds* iOS app, Android app, text messaging, or mobile website.

6

GET REPORTS

A wide array of online reports are available. Get data for a particular event or aggregate data for the whole year.

Other amazing features

ONLINE CME APPLICATION

eeds allows you to collaborate with others to get your online applications complete by giving all stakeholders access to a shared workspace. From there everyone can see the status of various forms, send messages back-and-forth, and get alerts when items are completed or missing. You can create custom forms to use in your application and also choose from pre-built ones.

ONLINE GAP ANALYSIS

We would like to boldly state that we have created the most comprehensive, yet user-friendly gap analysis form ever! Users are guided through the process step-by-step and are given multiple-choice options to help speed form completion. The *eeds* Objective Builder gives your course directors the guidance they need to create great objectives every time. Try our system and you are guaranteed to be amazed!
